

# Halloween Cones

Projects created by Julia Andrus, ©2010

## Welcome to crafting **GREEN!**

All the products used to create these Halloween cones are eco-friendly. The tacky Green Glue is completely botanical. The inks and paints contain no or low VOC's (volatile organic compounds). These products make a difference—for the earth, for the workers that produce them, and for the artists and crafters that use them. We are proud to present this project and it reflects our company-wide commitment to living "GREEN".
